**CORTI**

# La nostra storia

Una storia che dura da più di cinquant'anni

---

**CSR** è una azienda giovane ma dal Know How consolidato grazie all' esperienza della famiglia Corti che da più di 50 anni è in questo settore ed ha sempre seguito la produzione di componentistica tecnica.

L'azienda può fornire semilavorati in metallo come articoli zama o alluminio estruso con attrezzature proprie o dei clienti e lavorare gli articoli secondo le loro esigenze, oppure grazie l' esperienza maturata, CSR può seguire progetti partendo dalla realizzazione degli stampi e attrezzature, passando per la produzione di semilavorati e arrivando a completare un progetto consegnando ai clienti il prodotto finito.

Le produzioni di CSR sono versatili; gli standard produttivi sono adeguati con efficacia all' evoluzione fortemente differenziate del mercato sempre in evoluzione. Con la collaborazione di fornitori competitivi e preparati possiamo avere le migliori condizioni per fornire un prodotto di qualità con costi contenuti dandoci la possibilità di essere sempre concorrenziali con i prezzi di mercato.

**CSR** è attrezzata per le diverse esigenze del mercato con macchinari che aiutano a soddisfare le esigenze dei clienti. Taglierine di diverse dimensioni e mansioni aiutano nella produzione di articoli in alluminio e ci permettono di fare tagli su prodotti di diverse dimensioni. Centri di lavoro che ci permettono precisione nelle forature e fresature, trapani automatici e manuali per le diverse esigenze di lavorazione, piccole presse che consentono di fare riprese su parti metalliche con piccoli stampi per non gravare sui costi, macchinari e piccole attrezzature fatte apposta per progetti dedicati a specifici clienti.

# Our history

A history that has lasted for more than fifty years

---

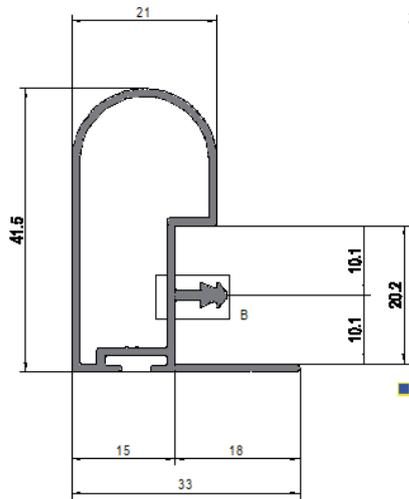

**CSR** is a young company but with consolidated know-how thanks to the experience of the Corti family that has been in this sector for more than 50 years and has always followed the production of technical components.

The company can supply semi-finished metal products such as zama or extruded aluminum items with its own equipment or those of customers and work the items according to their needs, or thanks to the experience gained, CSR can follow projects starting from the creation of molds and equipment, passing through the production of semi-finished products and arriving at completing a project by delivering the finished product to customers.

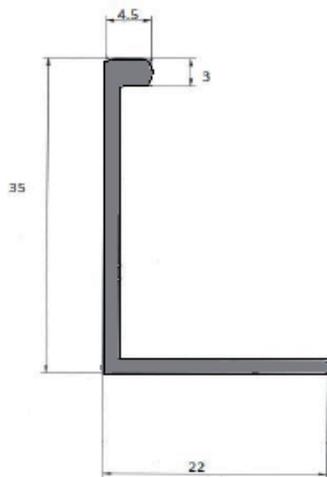

CSR productions are versatile; production standards are effectively adapted to the highly differentiated evolution of the ever-changing market. With the collaboration of competitive and prepared suppliers we can have the best conditions to supply a quality product with low costs giving us the possibility of always being competitive with market prices.

**CSR** is equipped for the different needs of the market with machinery that helps meet customer needs. Cutters of different sizes and tasks help in the production of aluminum items and allow us to make cuts on products of different sizes. CNC that allow us precision in drilling and milling, automatic and manual drills for different processing needs, small presses that allow us to make reworking on metal parts with small molds to avoid burdening costs, machinery and small equipment made specifically for projects dedicated to specific customers.

# PROFILO ANTINA

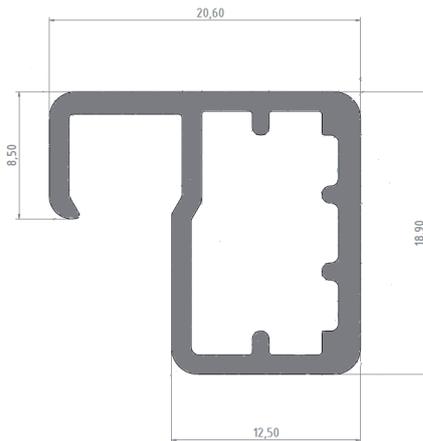

TR1225 PROFILO ANTINA

TR1821 PROFILO ANTINA CON MANIGLIA

TR3974 PROFILO ANTINA

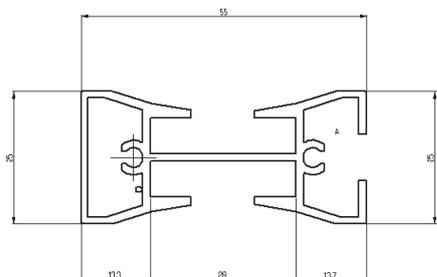

Tutti i profili possono essere forniti in diverse finiture, sia ossidate che verniciate

## SISTEMA CAF

Il sistema CAF è un articolo creato con montantini verticali dove gli accessori si installano lungo il lato del profilo. L'articolo è interamente prodotto in Italia ed è personalizzabile.

The CAF system is an article created with vertical uprights where the accessories are installed along the side of the profile.

The article is entirely produced in Italy and can be customized.

### PROFILO MONTANTE 55x25

Profilo in alluminio verniciato - standar grigio metallico

A richiesta si possono fare colori diversi

Metal Grey painted aluminium profile is standar

On request we could customize the colour

### MONTANTE CIELO TERRA 3000MM

Profilo in alluminio verniciato con piede e testa regolabile

Painted aluminium profile with adjustable head and Foot

Disponibili altre misure a richiesta

Other sizes available on request

### MONTANTE PARETE 2600/300MM

Profilo in alluminio verniciato con angolo 90°

Painted aluminium profile with 90° corner

Disponibili altre misure a richiesta

Other sizes available on request

Reggipiano Inferiore in zama verniciata completo di kit fissaggio  
Shelf brackets painted diecasting zinc with screw and nut

Reggipiano Inclinabile in zama verniciata completo di kit fissaggio  
Shelf brackets adjustable inclinations painted diecasting zinc with screw and nut

Reggipiano superiore / Fermavetro in zama verniciata completo di kit fissaggio  
Shelf holder/glas Holder painted diecasting zinc with screw and nut

Reggitubo ovale in zama verniciata completo di kit fissaggio  
Oval tube holder painted diecasting zinc with screw and nut

Reggitubo Rettangolare in zama verniciata completo di kit fissaggio  
Rectangular tube holder painted diecasting zinc with screw and nut

Testa fissaggio per soffitti inclinati in zama verniciata  
Head with joit painted zamak

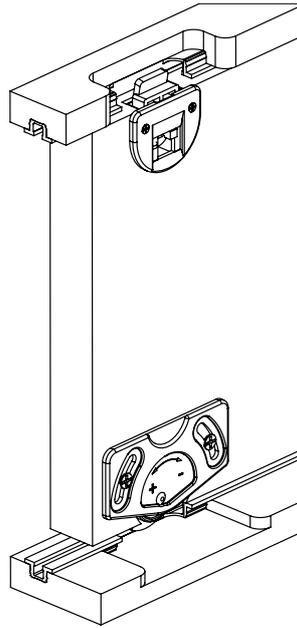

Supporto Reggispecchio in plastica nera con piastra in metallo verniciato nero  
completo di kit fissaggio  
Mirror holder support black plastic and black painted metal plate with screw and nut

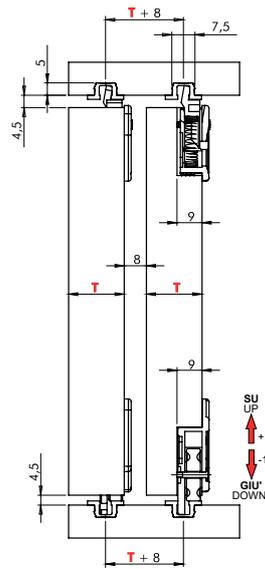

Supporto Fermacassetiera in plastic nera completo di kit fissaggio  
Black plastic Drawers lock with screw and nut
